

Iowa Republican Party Platform

Preamble

As Republicans we continue to uphold the principles of individual responsibility, adherence to traditional moral standards, a strong national defense, a free enterprise system and respect for the sanctity of human life. We believe in retaining the moral absolutes that our Founding Fathers drew from the Holy Scripture as the principal foundation for our Constitution.

We acknowledge God's blessing on our Country and our continued dependence upon God for the preservation of our Nation. We believe high moral character is a necessity of public servants. The highest standard of character should be embodied in both private and public life. We encourage the proliferation of these principles and their passage to future generations.

Agriculture

We believe a healthy agriculture is the basis of a secure and stable nation by providing a consistent food supply. We encourage continued support and use of renewable resources and support the continuation of environmentally friendly initiatives that help sustain family farming operations.

- 1.1 We urge the legislature to formulate and develop long-range agricultural policies to foster new and expanded domestic and international markets through the use of the private market system and not the World Trade Organization.
- 1.2 We believe agriculture is the basis of a secure and stable nation by providing a consistent food supply.

- 1.3 We encourage continued support and use of bio-fuels and support the continuation of environmentally friendly initiatives that help sustain family farming operations.
- 1.4 We support farm programs that allow individual farmers to raise a crop and sell it at a sufficient profit to eliminate the need for government subsidies.
- 1.5 We support using agriculture to reduce the trade deficit.
- 1.6 We support agriculture and value added agriculture products in Iowa; therefore, we support the livestock industry in this state and support those who engage in it while recognizing the need to protect the environment, but not at the expense of a vibrant livestock industry.
- 1.7 We support current laws that prohibit foreign international ownership of Iowa farmland.
- 1.8 We oppose a national animal identification system.
- 1.9 We support the "Country of Origin" labeling on food products.
- 1.10 We oppose efforts to impose a "sin" tax on all forms of red meat, poultry, fish, and dairy products.
- 1.11 We urge the legislature to formulate and develop long-range agricultural policies to foster new and expanded domestic and international markets through the use of the private market system and not the World Trade organization.
- 1.12 We support the use and enforcement of the same standards for both domestic and imported foods.
- 1.13 We believe that regulations affecting production agriculture, including water and air quality standards should be transferred from the DNR to the Iowa Department of Agriculture and Land Stewardship.
- 1.14 We support the definition of manure as a natural fertilizer.

Business and Economic Development

We believe that a welcoming business climate is critical to our state's economic prosperity and the development of our natural and human resources. The key to that prosperity is an adequate return on an individual's labor, talent, capital and risks. We believe that excessive regulation, business fees and taxes diminish that return.

- 2.1 We believe that the focus of OSHA should be working with, not against, business.
- 2.2 We believe the market place, not the government, should set the minimum wage.
- 2.3 We support Iowa's Right to Work Law and the passage of a national Right to Work Law.
- 2.4 We support developing a better business climate in Iowa through lowering taxes, reducing regulations and revising Workman's Compensation laws.
- 2.5 We believe that landlords should have the same rights as other business owners. Non-payment of rents should be considered a "theft of service."
- 2.6 We support a landlord's right to refuse leasing property and business owner refusing service based on moral grounds of individuals not covered by the Iowa Civil Rights Act.
- 2.7 We support the elimination of the Iowa Values Fund.
- 2.8 We support the repeal of the Davis-Bacon Act, which increases costs and reduces competition for federally financed construction.

Education

We believe parents, not the government, are responsible for and fully in charge of the education of their children.

We believe that in order for our educational system to be successful, it must be accountable to the parents of the community. Therefore, parents should be afforded as many options as possible including private, home or alternative based education. Parents should also be allowed to educate their children from a strong moral perspective. We do not believe that more money insures better education. We believe that some sort of reimbursement is due families who choose non-government education since they pay taxes as well as tuition.

- 3.1 We believe money should follow the child in education, whether children attend public or private institutions. Therefore we support school vouchers and/or tax credits that are provided without religious discrimination, which assist parents financially in educating their children using the option best suited to their family's educational needs.
- 3.2 We believe the displaying of the Ten Commandments, the American Flag and the recitation of the Pledge of Allegiance should be allowed.
- 3.3 We support voluntary teacher or student led prayer in government schools. The use of the Bible as a textbook should be allowed as a local option.
- 3.4 We support the teaching of alternative theories on the origins of life including Darwinian Evolution, Creation Science or Intelligent Design, and that each should be given equal weight in presentation.
- 3.5 We believe that educators should stress abstinence outside of marriage as the surest way to prevent pregnancy, the spread of sexually transmitted diseases, and associated psychological problems. We also oppose the distribution of condoms in tax-funded schools.

- 3.6 We oppose the teaching of sex education in any form, at any grade level without written parental consent.
- 3.7 We oppose compulsory preschool, and any proposal to change the age at which children are required to attend school.
- 3.8 We oppose the teaching of homosexual behavior as a normal, acceptable or alternative lifestyle, and believe that sex education must emphasize traditional heterosexual lifestyles.
- 3.9 We believe that teacher salaries should be based on performance rather than solely on tenure. We support programs that reward superior teachers and outline clear procedures to remove ineffective educators.
- 3.10 We support the abolition of the Federal Department of Education, and the removal of this position from the Cabinet. In addition, we call for the downsizing of the Iowa Department of Education. We believe that the control of education should be left to the parents, teachers, and local school boards.
- 3.11 We support the enactment of state and federal legislation and/or constitutional provisions that require college students to vote in the state or precinct where they file tax returns or are claimed as a legal dependent for income tax purposes.
- 3.12 We believe that all public employees should receive equal treatment for all employee benefits and policies regardless of organizational affiliation.
- 3.13 We believe Educators at all levels shall have comprehensive communication skills in English, and that English should be the official language used in all areas of the Iowa educational system.
- 3.14 We encourage the continuation of local County Extension Services to deliver informal educational programming and resources to communities, businesses, families and citizens.

- 3.15 We believe increased funding should not be the measure of support for the education in Iowa. Rather, support for policies and curriculum that returns the focus of Iowa K-12 education to basic academic achievement and appreciation for Western Civilization should be the measure of excellence in education.
- 3.16 We appreciate the contribution all ethnic groups have made to our American culture. However, we do not support “ethnic history” months observed in many Iowa school districts.
- 3.17 We call for the repeal of the ban on reasonable corporal punishment in Iowa schools, and for legal protection for teachers and principals who reasonably punish students for misbehavior. We believe that students’ civil liberties are not being infringed upon by punishing wrong behavior.
- 3.18 We demand that the Board of Regents and the state government end the practice of allowing any of our state universities offering in-state tuition to illegal aliens.
- 3.19 We oppose scholarship programs that exclusively benefit homosexual students.
- 3.20 We support fast-track teacher certification to allow competent professionals to teach in our schools.

Energy and Transportation

We believe the availability of an adequate supply of energy is essential to the economic strength of the U.S. We believe access to an adequate transportation infrastructure is necessary for a market economy to succeed and for national security to be served.

- 4.1 We support exploration and drilling for oil and natural gas in the Artic National Wildlife Refuge and the outer continental shelf.
- 4.2 We support the continuation of the Ethanol and Bio-Diesel tax credits to provide a support price for corn and soybeans.
- 4.3 We urge all taxes related to transportation to be used for the sole purpose of maintaining and building the transportation infrastructure. We call for equitable distribution of transportation funding between rural and urban areas
- 4.4 We call for an overhaul of the current Federal system regulating the sighting and building of new power plants.
- 4.5 We support reducing our dependency on foreign oil by increasing use of domestic resources.
- 4.6 We encourage the government to provide incentives for alternative energy usage and research.
- 4.7 We support the marketing and consumption of renewable fuels.
- 4.8 We oppose an ethanol mandate.
- 4.9 We oppose the Kyoto Treaty On The Environment and the language of the UN Kyoto Protocol, as it would put the U.S., its' jobs, citizens, and businesses at an economic disadvantage. We support responsible environmental policy that recognizes the importance of existing as well as alternative sources of fuel for both developed and developing countries.
- 4.10 We believe that the locks on the Mississippi river should be modernized and lengthened to be more efficient, with the use of taxes derived from fuel tax used by river vehicles.

Family Values

We believe that the basis of our laws and our founding documents are rooted in Judeo-Christian values. We believe every human being should have the inalienable right to life regardless of age or degree of dependency including human beings from conception. We believe the family is the cornerstone of society; a traditional two-parent family of one man and one woman is the best environment to raise children.

- 5.1 We support an amendment to both the state and federal Constitutions defining marriage as the exclusive union between one man and one woman.
- 5.2 We support the elimination of no-fault divorce.
- 5.3 We support adoption by heterosexual married couples only.
- 5.4 We oppose the creation of a protected class based on sexual orientation.
- 5.5 We believe that parents are responsible for their children, and we support the rights of parents to discipline, protect and educate their children.
- 5.6 We believe the father of a child, born or unborn, has the same rights and responsibilities as the mother in all matters regarding the child.

Government

We believe our government was designed to perform only certain limited functions. Beyond these functions it begins a reversal of the proper role of government as the servant, not the master of the people. We affirm that over-taxing families forces mothers and fathers to work more hours and spend less time parenting. Oversized government diminishes the entrepreneurial spirit of individuals and businesses, thereby restricting market-driven economic growth and development. This creates disincentives for handling social problems in the more appropriate domains

of family, neighborhoods, churches, faith-based organizations, volunteer efforts and private associations.

- 6.1 We support returning government functions from the federal level to the state and local governments wherever possible, consistent with the intent of the Constitution.
- 6.2 We support equal access for non-union and union contractors to government and school district projects, without mandating that contractors sign project labor agreements.
- 6.3 We support maintaining the principle of voluntary donors, not tax dollars, to fund the business of sports, entertainments and the arts.
- 6.4 We continue to support “English as the official language” in Iowa.
- 6.5 We support reforming campaign finance laws so as to uphold all Americans’ right to free speech by allowing American citizens to donate their time or money to political campaigns without limitation, requiring immediate and full disclosure of all sources of campaign funding.
- 6.6 We support building new prisons, as necessary to protect the public from violent criminals.
- 6.7 We support proof of citizenship and residency as requirements for voter registration. We believe voters should be required to present a valid picture ID before voting.
- 6.8 We support to limit attorneys’ fees in class action lawsuits and other cases where plaintiffs receive insignificant damages, so that fees are not disproportionate to any recovery obtained in the litigation.

- 6.9 We support requiring a full senate vote on all judicial nominations within 90 days of being nominated by the President.
- 6.10 We support the right of employees to organize, and to not have dues used to support political candidates, and requiring unions to receive written permission from each member before collecting funds for political purposes.
- 6.11 We support a strong commitment to science and technology development regarding space exploration.
- 6.12 We support sunset laws requiring all federal and Iowa agencies to expire automatically after a stated number of years unless renewed by law. This should not apply to any tax relief law.
- 6.13 We assert that the phrase, “the separation of church and state” as is commonly used, contradicts the original intent and practice of the Framers of the Constitution.
- 6.14 We urge our congressional delegation and our senators to support HR 235 which protects the religious free exercise and the free speech rights of churches and other houses of worship.
- 6.15 We believe government officials should not exempt themselves from laws they apply to others.
- 6.16 We support the creation of an Office of Inspector General for the State of Iowa.
- 6.17 We support a revision of the present bottle bill.
- 6.18 We believe we need to restructure our policies with the Native American Nations, including removing their sovereignty as Nations and making them ordinary American citizens.
- 6.19 We support faith-based initiatives for prisons and other providers of rehabilitation services.
- 6.20 We call for an end to all forms of Affirmative Action.
- 6.21 We support voting laws that emphasize Election Day balloting and oppose Oregon style mail in voting.

6.22 We believe that no further expansion of gambling should be allowed in Iowa.

Health and Human Services

Quality, affordable healthcare is of concern to all Americans. In an age of advanced medical technology, individuals need to prepare for health care expenses. Services such as healthcare do not come without a cost. Providers of goods and services are entitled to compensation for their products. For those citizens that cannot afford private health insurance, emergency life saving care should be available. Government healthcare programs must have sufficient oversight to prevent misuse of public funds.

- 7.1 Require reporting of AIDS carriers and felony prosecution of any AIDS carrier who willfully, knowingly exposes another person.
- 7.2 We support a mandate for reporting of AIDS by health-care professionals.
- 7.3 We believe that private companies or individuals should not be forced by law to sell or dispense the 'morning after pill' or contraceptives against their own guiding principles.
- 7.4 We believe the vaccination of children, and medical decisions are best left to the parents without government coercion.
- 7.5 We believe the vaccination of children, and medical decisions are best left to the parents without government coercion.
- 7.6 We support all health care practitioners and morticians to have knowledge of patients AIDS/HIV status prior to providing services via a HIPPA complaint database.

- 7.7 We believe AIDS should be classified as a communicable disease and epidemiologically as any other STD.
- 7.8 We support tax-free Health Savings Accounts that allow for personal control of medical care and saving for retirement at the same time.
- 7.9 We believe that in order to receive social security benefits, one must have paid in for a minimum of 40 quarters and must be a citizen of the United States.
- 7.10 We support measures to ensure that parents' permission is necessary for any medical testing or treatment performed on their minor children, except in situations that are both serious and urgent, where the parents cannot be contacted in time.
- 7.11 We are opposed in principle to Universal and/or Nationalized Health Care, believing that common sense and the market place can do what government can not: bring customers, health care providers and health care professionals together in a mutually beneficial union.
- 7.12 We support mandatory testing of AIDS/HIV of all healthcare professionals, and the right of patients and their families to access the results of those tests.
- 7.13 We support requiring facilities performing abortions or distributing the abortifacient drug RU486 be required to meet state medical clinic requirements and that they be required to secure malpractice insurance.
- 7.14 We support the confidential collection and reporting of statistics regarding induced abortion and RU486 use just as is done with any surgical procedure.
- 7.15 We call for requiring DHS to have a proper search warrant and a judge's order before entering homes or seizing children.
- 7.16 We insist that one accused by the Department of Human Services should be considered innocent until proven guilty.

Homeland Security and Immigration

We believe that Congress should establish an immigration policy that furthers the cultural, social and economic interests of the United States. A sound immigration policy and vigorous enforcement of immigration law is essential to securing our homeland.

- 8.1 We believe that current immigration laws should be enforced and strengthened.
- 8.2 We believe that one of the government's primary roles is to maintain an adequate force to secure the borders of the United States
- 8.3 We believe in a strong national defense.

- 8.7 We oppose all forms of amnesty for illegal aliens in this country. We call for the government to devote increased resources to seal the borders against illegal goods and people entering the U.S.
- 8.8 We call for an amendment to the U.S. Constitution that would prevent the automatic granting of ("anchor baby") citizenship to children born in the United States whose parents are illegally in this country.
- 8.9 We support modernizing the Department of Immigration's database systems.
- 8.10 We believe the government should not reimburse families for the loss of a loved one due to an act of God,

- natural disaster, or terrorist attacks unless the individual was a member of the armed services or in the employ of the United States Government.
- 8.11 We support the use of domestic surveillance to monitor contracts between foreign terrorists and their accomplices in the U.S. U.S. Immigration should end the “catch and release” system of deportation.

Law and Justice

We believe justice is grounded in personal rights in balance with public safety. We believe the job of government is to uphold the law and maintain order, to protect the innocent, resolve disputes and punish crime. We support fundamental tort reform to reduce lawsuit abuse.

- 9.1 We support reinstating the death penalty in Iowa for capital offenses.
- 9.2 Eminent domain should be used solely for public use; therefore we support legislation preventing the seizure of private property for economic development purposes.
- 9.3 We strongly believe in the Second Amendment, which guarantees us the right to keep and bear arms without government intervention.
- 9.4 We recognize a responsible, competent citizen’s right to self-defense through gun ownership including the right to carry a concealed weapon.
- 9.5 We believe that pornography is not included under the protections of the First Amendment. We strongly support the enforcement of existing Federal obscenity and pornography laws, including requiring libraries to place Internet filters on computers that are accessible to the public.

- 9.11 We support prison reform including the limitation of prisoner rights and amenities. Convicts should be required to work. We recommend education and training in vocational, technical and social skills.
- 9.12 Our judicial system should not use precedents or rulings from any source outside of the United States.
- 9.13 We support immediate incarceration of convicted drunk drivers thereby eliminating work permits and weekend only jail sentences.
- 9.14 We support the repeal of state and federal "hate crimes" legislation.

National Defense/Foreign Policy

We believe in our party's long-standing commitment to a strong national defense, and support the President's use of military force in seeking out and ridding the world of terrorists, wherever they hide, until the job is finished. - 10.13 We support development of controls so that foreign governments are never in a position to influence the outcome of an American election.

Natural Resources/Environment

We believe that the environmental policies should reflect sensitivity to sound ecological practices, unbiased scientific standards, risk analysis, national sovereignty, private property rights, common sense, and a realistic view of economic impact. We encourage recycling and other methods of reducing waste volume.

- 11.1 We oppose attempts to eliminate hunting and trapping of wild game.
- 11.2 Resolved, the government shall encourage strong soil, water, and wildlife conservation practices. We further recommend revising the Iowa REAO program to use more of the money for actual soil conservation and ground water protection.
- 11.3 We support realistic federal and Iowa laws to ensure clean air, clean water, and safe management of wastes. We ask that these laws be fairly and uniformly enforced, simplified when possible, and strengthened when necessary. Law and rules should be based on unbiased scientific research, risk analysis, economic impact and common sense.
- 11.4 Due to overpopulation of deer and turkey and the damage they do, their number should be reduced by the application of longer seasons and increasing the number of permits, including those to out-of-state hunters, and doe-only hunting.

Right to Life

We believe human life is a sacred gift from our Creator and is a fundamental right as outlined in the Declaration of Independence. This right is innately valuable in every stage and development, including the unborn and the elderly, the terminally or chronically ill, and the mentally or physically handicapped. No human life should ever be diminished, and innocent human life must never be arbitrarily taken.

- 12.1 The unborn child has a fundamental right to life, which cannot be infringed.
- 12.2 We reaffirm our support for a human rights amendment to the United States Constitution and the Constitution of the State of Iowa, and we endorse legislation to make clear that the Fourteenth Amendment's protections apply to unborn children.

- 12.11 We believe all life is sacred and that euthanasia, assisted suicide, and infanticide be banned.
- 12.12 We support the ban of partial birth abortion.

Taxes and Spending

We believe that less government is better government. We support every reasonable effort on the part of all governments and taxpayers to limit taxation and government spending. We believe that the only purpose of taxation is to fund the constitutionally mandated functions of government, not to "redistribute the wealth", or to fund ever increasing social programs. We believe that social problems are better handled by private groups or

benevolent organizations, and not by the government. We should strive to have less government restrictions, fewer government employees and lower taxes.

- 13.1 We support a balanced budget achieved by responsible spending rather than tax increases that place an undue burden on families.
- 13.2 We believe local governments should reduce their reliance upon property taxes as a revenue source.
- 13.3 We oppose any tax increase on alcohol and cigarettes.
